August 2019

There were just 12 members at the July meeting. We looked at pictures taken on our visit to Tring. We were blessed with very good weather which did help to enhance the resultant images. There is much to photograph in this interesting town which is now bypassed by most of the traffic that once edged its way through the narrow High Street. Current road works didn't affect us too much and we had the bonus of less traffic than normal. There was an added bonus of a number of E Type Jaguars driving through the town. Well done to those who managed to capture them. Many thanks to Barry Hunt for organising such an enjoyable day.

After the break, Barry showed an excellent short film of a visit to the Amalfi Coast in Italy using a mixture of pictures and video. Hopefully it will have inspired some of you to try something similar. Many thanks to Barrie for providing the last minute refreshments. There will be no field trip in August. Instead Miriam will show pictures taken on a recent visit to Harris and Lewis in the Hebrides. She will also give us a brief insight into her post processing techniques.

After the break I will show pictures from my recent visit to Outer Mongolia (and China if time permits).

I look forward to seeing you on the 21st.

What a shot! Not another car in sight (Lal)

Another cracking shot - (Barry H)

Combining two pictures. Not quite sure it worked!
